The video link provides a good summary of community concerns about this site. I visited it last Thursday on my way to the EJ conference. Gary Moore is the OSC investigating. Vandalism caused chemicals to leak out and wash into the neighboring community ...there was a very nauseating odor associated with the place. We are discussing response actions with TCEQ ..this could be a significant removal action. Will have a decision on how to proceed this week.

David,

This is the site that Gary recently responded to in Houston.

Ronnie
